QEII Hospital PARKING

QEII Hospital's new multi-level car park P1 will be open on Tuesday 3 November 2026

More secure, convenient parking is on its way to QEII Hospital.

Our new multi-level car park **P1** will open from **Tuesday 3 November 2026**.

The P1 car park will provide more than 1,000 parking spaces for patients, visitors and staff to use each day.

When P1 opens, the **P2** car park on Middle Street will close for building works.

Thank you for your patience while we expand QEII Hospital.

Parking fees and concessions

There will be no cost to park at P1 at the QEII Hospital until early 2027.

Paid parking costs will align with the Statewide Hospital Car Parking Framework.

Parking fees and concessions, including rates for staff, will be in place from early 2027. We will provide advance notice before paid parking starts.

The fees help pay for building, running, maintaining, and improving the car park, and not profit making.

Concessions will be available to provide discounted parking fees for eligible patients and carers.

A discounted rate and salary packaging options will be available for staff.

The project is being delivered thanks to the Queensland Government.
